#### INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners Midway Fire District

#### **Report on Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the general fund, and the pension trust fund of Midway Fire District (the "District"), as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the general fund, and the pension trust fund of the District, as of September 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5, the Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund on page 32, and the pension related schedules on pages 33 through 35, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 26, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Audit Standards* in considering the District's internal control over financial reporting and compliance.

Pensacola, Florida April 26, 2017

Warren averett, LLC

As management of Midway Fire District ("the District"), we offer readers of the District's financial statements this narrative overview and analysis of financial activities of the District for the fiscal year ended September 30, 2016.

#### **FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources by \$2,572,359 (net position). Of this amount of net position, \$1,404,006 represents the net investment in capital assets (e.g. land, building, fire trucks, and equipment) net of related debt, \$540,171 is restricted for future obligations, and the unrestricted portion, which may be used to meet the District's ongoing obligations to citizens and creditors, has a balance of \$628,182.
- The District's governmental funds reported ending fund balances of \$351,332, a decrease of \$47,943.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis intends to serve as an introduction to the District's basic financial statements. Midway Fire District's basic financial statements comprise three components: 1) government- wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements. The District has elected to present the government-wide financial statements and fund financial statements in a combined presentation with a column containing the adjustments to reconcile the two financial statements.

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The Statement of Net Position presents information on all of the District's assets, deferred inflows of resources, deferred outflows of resources and liabilities, with reported net position being the amount assets and deferred outflows of resources exceed liabilities and deferred inflows of resources. This statement combines and consolidates the governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations. Over time, increases or decreases in net position may serve as a useful indicator of the financial position of the District.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements distinguish functions of the District that are principally supported by taxes. The governmental activities of the District consist of public safety (fire suppression and emergency response). The government-wide financial statements are found on pages 10 - 13 of this report.

#### **FUND FINANCIAL STATEMENTS**

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Midway Fire District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

#### **GOVERNMENTAL FUNDS**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Such information may be useful in evaluating a government's near-term financial requirements. Found on pages 10 and 13 of this report are the basic governmental fund financial statements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Midway Fire District maintains one governmental fund (General Fund). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, which is considered a major fund.

Midway Fire District adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule is provided for the General Fund to demonstrate compliance with the budget on page 32 of this report.

#### FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The District has one fiduciary fund (Pension Trust Fund). Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements are found on pages 14 - 15 of this report.

#### OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget and progress in funding its obligation to provide pension benefits to its employees. The required supplementary information is found on pages 32 - 37 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflow of resources by \$2,572,359 (net position) for the fiscal year as reported in the table on page 6.

By far the largest portion of the District's net position, \$1,404,006 (or 55%) reflects its investment in capital assets (e.g. land, buildings, fire trucks, and equipment) less any related debt still outstanding that was used to acquire those assets.

Midway Fire District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District reports the investment in its capital assets net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

	Governmental Activities

NET POSITION ENDING	\$	2,572,359	\$	2,236,804

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

#### **GOVERNMENTAL FUNDS**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental fund reported ending fund balances of \$351,332, a decrease of \$47,943 in comparison with the prior year.

Overall revenues decreased approximately \$19,000 from 2015 to 2016. Even though the District maintained the millage rate at 1.75, the overall property tax revenue increased approximately \$65,000 due to increasing property values. However, this increase was offset by a decrease in impact fees received throughout the year of approximately \$33,000 and a reduction in grant funding of approximately \$66,000.

Public safety expenditures decreased approximately \$62,000 from 2015 to 2016 due to the ongoing efforts of the District to maintain cost levels.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

During the year, total budgeted expenditures exceeded actual expenditures by approximately \$209,000 and actual revenues exceeded budgeted revenues by approximately \$18,000. There were no modifications to the preliminary budget.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **CAPITAL ASSETS**

Midway Fire District's investments in capital assets for its governmental activities as of September 30, 2016, amounts to approximately \$3.4 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, equipment, and fire trucks and vehicles. The additions to the District's capital assets for the current fiscal year were \$154,790 and the increase in accumulated depreciation totaled \$224,203.

## CAPITAL ASSETS (Net of Depreciation)

	Governmental Activities			ctivities
		2016		2015
Land	\$	427,721	\$	427,721
Buildings		2,048,696		2,124,053
Improvements		144,447		33,694
Equipment		110,122		103,215
Fire trucks and vehicles		627,895		740,076
Total	\$	3,358,881	\$	3,428,759

Additional information on the capital assets of the District can be found in Note 3 of this report.

#### **LONG -TERM DEBT**

At the end of the current fiscal year, the District had total debt outstanding of \$2.2 million. All of the District's debt, with the exception of compensated absences, represents bank loans secured solely by specified property and non-ad valorem revenues. Midway Fire District has no general obligation or special assessment debt.

## OUTSTANDING DEBT (Notes payable and Compensated Absence)

		Governmen	tal A	ctivities
		2016		2015
Notes Payable	\$	1,954,875	\$	2,207,841
Compensated absence		275,045		273,571
Total	\$_	2,229,920	\$	2,481,412

Additional information on the District's long-term debt can be found in Note 6 of this report.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The District primarily relies upon property taxes, impact fees, and user fees to fund its activities. There are also a limited number of state shared revenues and recurring and non-recurring grants from both the state and federal government which provide funding for specific programs, projects, or activities.

The primary source of revenue for the District is property taxes. The approved millage rate for the fiscal year 2017 is 1.85 mills, an increase of .10 mills from 2016.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's financial condition. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Financial Administrator, Midway Fire District, 1322 College Parkway, Gulf Breeze, Florida 32563. Midway Fire District's website address is www.midwayfire.com. Inquiries may also be sent via email to the Financial Administrator missy.scarborough@midwayfire.com.

#### 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Midway Fire District (the "District") is a body corporate and politic, created pursuant to Chapter 82-377, Laws of Florida in 1982, as amended in 1997 by House Bill 1741 of the Florida House of Representatives and in 2003 by Chapter 2003-364, Laws of Florida, House Bill 1225 of the Florida House of Representatives. The purpose of the District is to raise funds for the operations of the Midway Fire Department (the "Department") through the levy of ad valorem taxes on property within the District. The District is served by a five-member Board of Commissioners elected at large from the residents of the District. The District is authorized to provide equipment and funds to the Department and to enter into debt agreements on its behalf.

The financial statements of the District have been prepared in accordance with accounting principles generally accepted (GAAP) in the United States of America applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

The following is a summary of the District's accounting policies applied in the preparation of the financial statements.

#### A. The Reporting Entity

As required by GAAP, these financial statements present Midway Fire District as the primary government. In evaluating the District as a reporting entity, management has concluded there are no component units which are required to be included in these financial statements.

#### B. Government-Wide and Fund Financial Statements

The basic financial statements include presentations of both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. Since only one governmental fund is utilized, there is no interfund activity which requires elimination. Governmental activities of the District are primarily supported by taxes and intergovernmental revenues. There are no business-type activities conducted by the District which rely, to a significant extent, on fees and charges for support.

As permitted by GAAP, the District has elected to present the government-wide financial statements and fund financial statements in a combined presentation with a column containing the adjustments to reconcile the two financial statements.

Separate fund financial statements are provided for the general fund and the fiduciary fund, even though the fiduciary fund is excluded from the government-wide financial statements. Each fund is a separate accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The following two broad classifications are used to categorize the fund types used by the District:

### 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

#### B. Government-Wide and Fund Financial Statements - Continued

#### Governmental

Governmental funds focus on the determination of financial position and changes in financial position (sources, uses, and balances of financial resources). The District has only one governmental fund, the General Fund, which is the District's primary operating fund and is used to account for all financial resources except those required to be accounted for in another fund.

#### **Fiduciary**

Fiduciary funds are used to account for the assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. The District has one type of fiduciary fund, the Pension Trust Fund, which reports the resources required to be held in trust for the members and beneficiaries of the defined benefit pension plan administered by the Midway Fire District Firefighters' Pension Trust Fund Board of Trustees.

#### C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recorded as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period, except for certain grant revenues which are recognized as revenues in the same period the grant expenditures occurred, or, when received in advance, deferred until expenditures are made. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenue recognition criteria for property taxes requires that property taxes expected to be collected within sixty days of the current period be accrued. No accrual has been made for fiscal year 2017 ad valorem taxes because property taxes are not legally due until subsequent to the end of the fiscal year.

Fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The accrual basis of accounting recognizes revenues when earned and expenses when incurred. The pension trust fund is used to account for the assets held by the District in a trustee capacity for the pension plan's participants.

### 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

#### C. Measurement Focus and Basis of Accounting – Continued

Plan contributions to the pension trust fund are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources, as they are needed.

### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balance or Net Position

#### Cash and Cash Equivalents

The District's cash on hand, demand deposits, and short-term investments with original maturities of three months or less when purchased are considered cash and cash equivalents.

#### **Investments**

Section 218.415, Florida Statutes, prescribes certain allowable investments including the Local Government Surplus Funds Trust Fund (Florida PRIME), Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, interest-bearing time deposits or savings accounts in qualified public depositories, or direct obligations of the U.S. Treasury.

The District's general fund investments are invested in the Florida PRIME, an external investment pool operated by Florida's State Board of Administration ("SBA"). The SBA is governed by Chapter 19-7 of the Florida Administrative Code ("FAC"). The FAC provides guidance and establishes the general operating procedures for the administration of the Florida PRIME. The Florida PRIME meets the criteria of GASB Statement 79 to measure its investments at amortized cost, which approximates fair value, and the reported investment balance is equal to the value of the pooled shares. The Florida Auditor General performs an operational audit of activities and investments of the SBA.

Florida PRIME manages credit risk by purchasing only high quality securities and monitors the credit risks of its portfolio securities on an ongoing basis by reviewing periodic financial data, issuer news and developments, and ratings of certain nationally recognized statistical rating organizations. Florida PRIME manages interest rate risk by purchasing only short-term fixed income securities.

Investments of the Firefighters' Pension Trust Fund are invested with the Florida Municipal Investment Trust (FMIvT), which is managed by the Florida Municipal Pension Trust Fund (FMPTF). The FMIvT is a Local Government Investment Pool (LGIP) and, therefore, considered an external investment pool. The Firefighters' Pension Trust Fund has a beneficial interest in the shares of the FMIvT portfolio, not in the individual securities held within the portfolio. The Midway Fire District has adopted the investment policy of the FMPTF as the investment policy for the Firefighters' Pension Trust Fund. Under this policy, a wide array of investments are allowable.

- 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES CONTINUED
- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balance or Net Position Continued

#### Capital Assets

Capital assets, which include property and equipment, are reported in the governmental activities column in the government-wide financial statements. The District capitalizes assets that have an estimated useful life in excess of one year and an initial cost greater than \$1,500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are not capitalized.

Property and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	5 - 40 years
Improvements	5 - 15 years
Equipment & apparatuses	2 - 10 years
Fire trucks & vehicles	5 - 15 years

#### **Deferred Outflow/Inflow of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. The first item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item relates to changes in the pension assumptions and experience which is further disclosed in Note 7.

In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflow of resources*. This separate financial statement element, *deferred inflow of resources*, represents an acquisition of net position that applies to a future period(s) and will *not* be recognized as an inflow of resources (revenue) until that time. The only item that qualifies for reporting as a deferred inflow is the difference between projected and actual earnings on the pension investments. This item is further disclosed in Note 7.

- 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES CONTINUED
- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Balance or Net Position Continued

#### Compensated Absences

The District allows employees to accumulate sick and vacation leave benefits which will be paid upon separation from service. Unpaid compensated absences are recorded as a liability in the government-wide financial statements when the benefits are earned. For governmental funds, these expenditures are recognized when payments are made to the employees.

#### **Fund Balances**

In the fund financial statements, fund balances are reported as either non-spendable or as restricted, committed, assigned, and unassigned, based on the extent to which there are external and internal constraints on the use of these fund balances.

#### **Net Position**

The government-wide financial statements utilize a net position presentation. Net investments in capital assets reflects the portion of net position which is associated with capital assets less outstanding capital asset related debt. Restricted net position consists of \$102,626 for impact fees which may only be used for growth necessitated capital expenditures; and \$437,545 relates to the net pension asset. Unrestricted net position represents the portion of net position that is neither restricted nor invested in capital assets (net of related debt).

#### Pension Plan

The government-wide financial statements present a net pension asset equal to the difference between the actuarial present value of projected benefits to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, and the amount of the pension plan's fiduciary net position. Additionally, pension expense and deferred outflows of resources and deferred inflows of resources are annually recognized from changes in the components of the net pension asset. See note 7 for more information.

#### E. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

#### F. Property Tax

The Santa Rosa County Tax Collector bills and collects property taxes for the District. Property taxes attach as an enforceable lien on property as of the date of assessment and remain in effect until discharge by payment. Taxes are payable when levied (on November 1, or as soon thereafter as the assessment roll becomes available to the Tax Collector).

The following is the current property tax calendar:

Lien Date

Levy Date

November 1, 2017

Due Date

November 1, 2017

Delinquent Date

April 1, 2017

Beginning in November, discounts are granted of 1% for each month taxes are paid prior to the following March.

#### 2. CASH AND INVESTMENTS

#### Cash

The District's deposits at year-end were held by a financial institution designated as a "Qualified Public Depository" as defined by the State Treasurer. All deposits were fully insured through a combination of federal depository insurance and participation of the financial institution in the multiple financial institution collateral pool as specified in Chapter 280, Florida Statutes. Accordingly, risk of loss due to bank failure is not significant.

#### Investments

The types of allowable investments are restricted by state statutes, retirement fund plan documents, and other contractual agreements. A description of the requirements and the types of investments allowed is in Note 1-D.

#### General Fund

At September 30, 2016, the District had investments of \$62,156 with the Florida PRIME. The fair value of the District's position in Florida PRIME is the same as the value of the pool shares. In accordance with GASB Statement 79, Florida Prime qualifies for measuring its investments at amortized cost and management of the pool believes that the pool is exempt from the GASB 72 fair value hierarchy disclosures.

As of September 30, 2016, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100% of their account value.

#### Foreign Currency Risk

The Florida PRIME was not exposed to any foreign currency risk during the year ended September 30, 2016.

#### 2. CASH AND INVESTMENTS - CONTINUED

#### Investments – Continued

#### General Fund – Continued

#### Security Lending

The Florida PRIME did not participate in a securities lending program during the year ended September 30, 2016.

#### Credit Quality

The Florida PRIME is rated by Standard and Poors, and carries an AAAm rating.

#### Interest Rate Risk

As of September 30, 2016, the Florida PRIME portfolio's weighted average days to maturity (WAM) was 50 days. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the Florida PRIME to interest rate changes.

#### Pension Trust Fund

The District is a participating employer of the Florida Municipal Pension Trust Fund (FMPTF) which provides the District's pension plan with administrative and investment services. All employee pension plan assets are included in the trust's Master Trust Fund and are invested by the FMPTF through the Florida Municipal Investment Trust (FMIvT) for the benefit of the District, employees and beneficiaries. The FMIvT is Local Government Investment Pool (an external investment pool for GASB reporting purposes) and the District has a beneficial interest in FMIvT Portfolio A and not the individual securities held within the portfolio. Portfolio "A" strives for a ratio of 60% Equities/40% Fixed Income. These investments are reported at fair value within the pool. At September 30, 2016, the District's investment in the FMPTF was \$4,121,483.

The District measures and records the investment in the pool using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1 Inputs – directly observable, quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs are derived from or corroborated by observable market data through correlation or by other means.

Level 3 Inputs – unobservable inputs used only when relevant Level 1 and Level 2 inputs are unavailable.

Governmental activities, net	\$ 3,428,759	\$ (69,413)	\$ (465)	\$ 3,358,881

Depreciation expense reported in the government-wide financial statement was \$224,203.

#### 4. RISK MANAGEMENT

The District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases insurance through commercial carriers to cover these risks. There have been no significant reductions in insurance coverage during the current year. Settlements have not exceeded insurance coverage in each of the past three years.

The District's worker's compensation is insured under a retrospectively rated policy in which the initial premium is adjusted based on actual experience during the period of coverage. Premiums are paid on the basis of the carrier's estimated cost of providing insurance to similar groups.

#### 5. LINE OF CREDIT

The District has a line of credit up to \$500,000, collateralized by the General Fund's deposits and investments. This line of credit bears interest payable monthly at the 30 day LIBOR rate plus 2.50%. The maturity date of this line of credit is June 1, 2017. There were no draws during the year and there was no balance outstanding at September 30, 2016.

#### 6. LONG-TERM DEBT

The following table summarizes changes in long-term debt of the District for the year ended September 30, 2016:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
<b>Governmental Activities</b>					
Notes payable	\$ 2,207,841	\$ -	\$ (252,966)	\$1,954,875	\$ 259,898
Compensated absences	273,571	92,520	(91,046)	275,045	
Total governmental activities	\$ 2,481,412	\$ 92,520	\$ (344,012)	\$2,229,920	\$ 259,898

Annual Requirements to Amortize Debt Outstanding

The annual debt service requirements to maturity to retire notes payable are as follows:

		Notes	Payab	le
Year ending September 30,	<u>F</u>	Principal		nterest
2017	\$	259,898	\$	51,719
2018		242,748		44,795
2019		232,529		38,677
2020		238,678		32,529
2021		186,260		26,217
Thereafter		794,762		53,820
Total	<u>\$</u>	1,954,875	\$	247,757

#### 6. LONG-TERM DEBT – CONTINUED

#### 7. DEFINED BENEFIT PENSION PLAN

#### **Plan Description**

#### Plan Administration

Midway Fire District Firefighters' Pension Trust Fund (Plan) is a single-employer defined benefit pension plan for the sole benefit of the firefighters of the District. The Plan was established in 1998 and is administered by a Board of Trustees. The Board consists of five Trustees, two of whom are appointed by the Fire District Commission; two of whom are full-time Firefighters (members of the Plan) elected by a majority vote of the members of the Plan; and a fifth Trustee chosen by a majority of the first four Trustees. Participation is mandatory for all firefighters. The Plan operates under the provisions of Chapter 175, Florida Statutes, with administrative oversight provided by the Florida League of Cities. Chapter 175 establishes minimum benefits and minimum standards for the operation and funding of the Plan. The financial activity of the Plan is reported as a Pension Trust Fund in the District's fiduciary fund financial statements. The Plan's assets may be used only for the payment of benefits to members. The Plan does not issue a stand-alone audited financial report.

#### 7. DEFINED BENEFIT PENSION PLAN - CONTINUED

#### Measurement Date for Pension Reporting

The pension related amounts reported in the financial statements as of and for the year ended September 30, 2016 (employer reporting period) are based upon the net pension liability and the pension expense determined as of and for the year ended September 30, 2016 (the measurement date).

#### Benefits Provided

The Plan provides retirement, termination, disability and death benefits.

#### Normal Retirement:

Date: The earlier of: 1) age 55 and the completion of 10 years of Credited Service, or 2) the attainment of age 52 and the completion of 25 years of credit service.

Benefit: 3.00% of Average Final Compensation times Credited Service.

#### Early Retirement:

Date: Age 50 and 10 years of Credited Service.

Accrued benefit, reduced 3.0% per year.

#### Vestina:

Schedule: 100% after 10 years of Credited Service.

Benefit Amount: Member will receive the vested portion of his (her) accrued benefit payable at the otherwise Normal Retirement Date.

#### Disability:

Eligibility Service Incurred: Covered from Date of Employment.

Eligibility Non-Service Incurred: 10 years of Credited Service.

Benefit accrued to date of disability but not less than 42% of Average Final Compensation (Service Incurred) or 25% of Average Final Compensation (Not Service Incurred).

#### Pre-Retirement Death Benefits:

Vested: Monthly accrued benefit payable to designated beneficiary for 10 years at the otherwise Normal or Early Retirement Date.

Non-Vested: Refund of accumulated contributions without interest.

#### Plan Membership as of October 1, 2016:

Inactive Plan Members or Beneficiaries Current Receiving Benefits	2
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	1
Active Plan Members	26
	29

#### Contributions

Contribution requirements are established and may be amended by the State legislature. Plan members are required to contribute 5% of their base salary to the Plan. The State of Florida contributes a discretionary portion of the 1.85% excise tax imposed on insurance premiums on property within the District into the Plan. The District is required to contribute at an actuarially determined rate so that sufficient assets will be available to pay benefits when due. The actuarially determined combined contribution rate for 2016 for both the State of Florida and the District was 7.8%, resulting in a total contribution rate of 12.8% of covered payroll.

#### Investments

The District's adopted asset allocation policy as of September 30, 2016 was a target allocation of 50% domestic equity, 10% international equities, and 40% fixed income.

#### 7. DEFINED BENEFIT PENSION PLAN - CONTINUED

#### Concentrations

The Plan did not hold investments in any one organization that represent 5 percent or more of the Pension Plan's fiduciary net position.

#### Rate of Return

For the year ended September 30, 2016, the annual money weighted rate of return on Plan investments, net of Plan investment expense, was 8%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### **Net Pension Liability (Asset)**

The components of the Net Pension Liability (Asset) of the Sponsor based upon the measurement date of September 30, 2016 were as follows:

Total Pension Liability	\$ (3,712,669)
Plan Fiduciary Net Position	4,150,214
Sponsor's Net Pension Asset	\$ 437,545

#### Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of October 1, 2016 using the following actuarial assumptions:

Inflation 2.92%
Salary Increases Service based
Discount Rate 7.00%
Investment Rate of Return 7.00%

Mortality rates utilized are as follows:

#### Mortality Rate Healthy Lives:

Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB.

Male: RP2000 Generational, 10% Annuitant White Collar /90% Annuitant Blue Collar, Scale BB.

#### Mortality Rate Disabled Lives:

Female: 60% RP2000 Disabled Female set forward two years / 40% Annuitant White Collar with no setback, no projection scale.

Male: 60% RP2000 Disabled Male setback four years / 40% Annuitant White Collar with no setback, no projection scale.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the Long-Term Expected Rate of Return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

#### 7. DEFINED BENEFIT PENSION PLAN - CONTINUED

Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of September 30, 2016 are summarized in the following table:

Asset Class	Real Rate of Return
Domestic Equity	6.08 - 6.83%
International equity	6.83%
Fixed Income	.58 - 1.08%

#### Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### **Changes in Net Pension Liability (Asset)**

	Increase (Decrease)					
	То	Total Pension Plan Fiduciary Liability Net Position (a) (b)		Net Pension Liability (Asset (a) – (b)		
Beginning Balances	\$	2,585,538	\$	3,660,966	\$	(1,075,428)

Balances at September 30, 2016	\$	3,712,669	\$	4,150,214	\$	(437,545)

#### 7. DEFINED BENEFIT PENSION PLAN - CONTINUED

Sensitivity of the Net Pension Liability (Asset) to changes in the Discount Rate:

	1% Decrease 6.00%		Current Discount Rate		1% Increase 8.00%	
Sponsor's Net Pension (Asset)	\$	295,640	\$	(437,545)	\$	(1,027,668)

### Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2016, the District recognized a pension expenditure of \$20,946 (employer contributions) in the fund level financial statements, and a reduction in pension expense of \$215,520 in the government- wide financial statements. On September 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following source:

	Deferred Outflows of Resources			Deferred Inflows of Resources		
Differences between expected and actual experience Changes of assumptions Net difference between projected and actual earnings	\$	591,784 65,465	\$	-		
on Plan investments		-		38,729		
Total	\$	657,249	\$	38,729		

Amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30,	
2017	\$ 62,018
2018	62,019
2019	62,020
2020	67,323
2021	73,028
Thereafter	 292,112
	\$ 618,520

#### 8. COMMITMENTS AND CONTINGENCIES

The District may be contingently liable with respect to lawsuits and claims incidental to the ordinary course of its operations. In the opinion of management, there are no claims, either asserted or unasserted, which are likely to have a material effect on the financial position of the District.

#### 9. GOVERNMENTAL FUND BALANCES

Fund balance at year end consists of the following:

Non-spendable fund balances include amounts that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact. There were no non-spendable fund balances as of September 30, 2016.

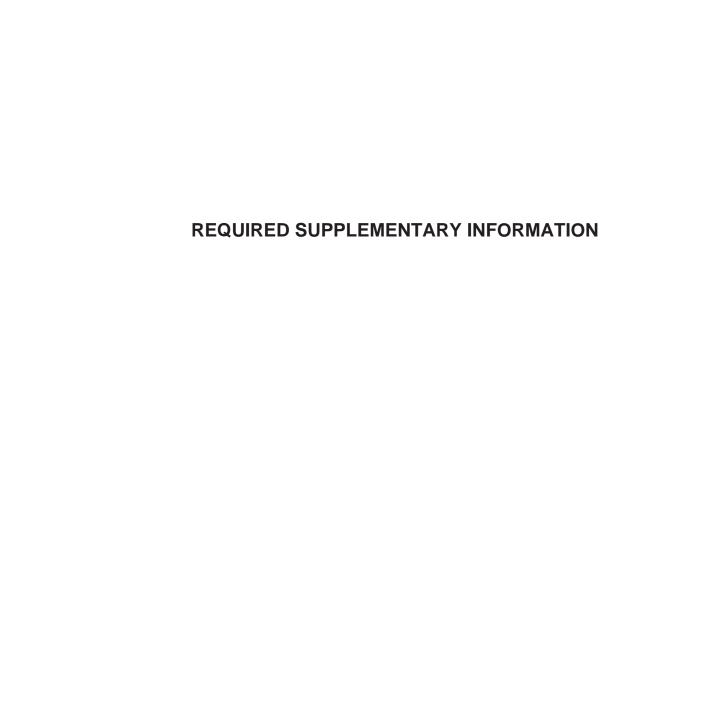

Remaining fund balances are classified as follows depending on the District's ability to control the spending of these fund balances.

Restricted fund balances can only be used for specific purposes which are externally imposed by creditors, grantors, contributors, or laws or regulations or are imposed by law through constitutional provisions or enabling legislation. As of September 30, 2016, the District had restricted fund balance in its General Fund, consisting of \$102,626 for future capital expenditures and improvements.

Committed fund balances can only be used for specific purposes imposed internally by the District's formal action of highest level of decision making authority. As of September 30, 2016, there were no committed fund balances.

Assigned fund balances are fund balances intended to be used for specific purposes, but which do not meet the more formal criterion to be considered either restricted or committed. As of September 30, 2016, the District had \$248,706 of assigned fund balances related to the fiscal year 2017 budgeted use of fund balance.

Unassigned fund balances represent the residual positive fund balance within the General Fund, which has not been restricted, committed, or assigned. As of September 30, 2016, the District did not have any unassigned fund balance.

#### MIDWAY FIRE DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2016

#### **Budgets**

Revenues and expenditures are controlled by a formal budget adopted by the Board of Commissioners of the District. The budget is prepared on a basis consistent with GAAP. The legal level of control for appropriations is exercised at the total expenditure level, including a ten-percent contingency. The tax rate in effect for the current year was 1.75 mills. The District may only increase the millage rate 2/10ths of a mill annually up to the State maximum allowed millage of 3.75 mills.

Budget workshops are held by the District to plan, review, and discuss the proposed budget prior to its advertisement in a newspaper of general circulation. Public hearings are conducted for the purpose of hearing requests and complaints from the public. The final budget is adopted by District resolution. Any subsequent amendments must be enacted in the same manner as the original budget, except for individual line item transfers, which are approved by the Board of Commissioners.

Payroll Growth Assumption: None.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To The Board of Commissioners Midway Fire District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the statements of the governmental activities, the general fund, and the pension trust fund of Midway Fire District (the "District") as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated April 26, 2017.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, where applicable, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, where applicable, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

Warren averett, LLC

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pensacola, Florida April 26, 2017

# INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE REQUIREMENTS IN ACCORDANCE WITH CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

To The Board of Commissioners Midway Fire District

We have examined Midway Fire District's (hereinafter referred to as "the District") compliance with Florida Statute 218.415 in regards to investments for the year ended September 30, 2016.

Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2016.

Pensacola, Florida April 26, 2017

Warren averett, LLC

#### MANAGEMENT LETTER

To The Board of Commissioners Midway Fire District

#### **Report on the Financial Statements**

We have audited the financial statements of Midway Fire District (the "District") as of and for the fiscal year ended September 30, 2016, and have issued our report thereon dated April 26, 2017.

#### **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, *Rules of the Auditor General*.

#### **Other Reports**

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on Examination of Compliance Requirements in Accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports, if any, which are dated April 26, 2017, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit. No recommendations were made in the preceding financial audit report.

#### Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in the management letter, unless disclosed in the notes to the financial statements. The legal authority for the District is disclosed in Note 1 to the financial statements. There are no component units related to the District.

#### **Financial Condition**

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require that we apply appropriate procedures and report the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

#### **Annual Financial Report**

Sections 10.554(1)(i)5.b. and 10.556(7), *Rules of the Auditor General*, require that we apply appropriate procedures and report the results of our determination as to whether the annual financial report for the District for the fiscal year ended September 30, 2016, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2016. In connection with our audit, we determined that these two reports were in agreement.

#### **Other Matters**

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

#### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
